Keywords: interview period; date started

Notes: This variable was created from SASTRDUR which is the number of days into the interview period before the Sample Adult section was started.

Due to the October 2013 federal government furlough, the allowable period to complete sample cases worked in the late fall of 2013 was extended past one month. This impacted cases worked in the first few months of 2014, when interviewers may have been working on cases from the late 2013 and early 2014 samples. These cases from the early 2014 sample, therefore, have a higher proportion of cases started "late" compared to the rest of the year. Use the INTV_MON (interview month) variable to view the distribution of cases from January to December, 2014.

Point in the interview period when the Sample Adult section was started

1	Early
2	Middle
3	Late

Question ID: AID.026_01.000   R01 RECODE   Instrument Variable Name:

Final Documentation Name: SA_TOD

Universe: SATIME gt '0'

Description: Sample Adult section has been started

Sources: SATIME

Recodes: None

Keywords: time started

Notes: None

Time of day that the Sample Adult section was started

1	Morning
2	Afternoon
3	Evening
